Welcome to Hagerty Price Guide, the most accurate, up-to-date, and relevant price guide for those involved in the post-war classic car marketplace. Hagerty Price Guide was originally published under the name of Cars That Matter in August of 2006, and was later renamed Hagerty's Cars That Matter in September of 2008. Currently, Hagerty Price Guide is published three times a year, and it has quickly become an authoritative and respected resource for valuing classic, collectible, and historic vehicles.

Vehicle Condition Ratings:

Condition 1:

Condition #1 vehicles are the best in the world. The visual image is of the best car, in the right colors, driving onto the lawn at the finest concours. Perfectly clean, the car has been groomed down to the tire treads. Painted and chromed surfaces are mirror-like. Dust and dirt are banned, and materials used are correct and superbly fitted. The one word description for #1 cars is "concours."

Condition 2:

#2 cars could win a local or regional show. They can be former #1 cars that have been driven or have aged. Seasoned observers will have to look closely for flaws, but will be able to find some not seen by the general public. The paint, chrome, glass and interior will all appear as excellent. No excessive smoke will be seen on startup, no unusual noises will emanate from the engine compartment. The vehicle will drive as a new car of its era would. The one word description for #2 cars is "excellent."

Condition 3:

#3 cars could possess some, but not all of the issues of a #4 car, but they will be balanced by other factors such as a fresh paint job or a new, correct interior. #3 cars drive and run well, but might have some incorrect parts. These cars are not used for daily transportation but are ready for a long tour without excuses, and the casual passerby will not find any visual flaws. "Good" is the one word description of a #3 car.

Condition 4:

#4 cars are daily drivers, with flaws visible to the naked eye. The chrome might have pitting or scratches, the windshield might be chipped. Paintwork is imperfect, and perhaps the fender has a minor dent. The interior could have split seams or a cracked dash. No major parts are missing, but the wheels could differ from the originals, or the interior might not be stock. A #4 car can also be a deteriorated restoration. "Fair" is the one word that describes a #4 car.

Hagerty Insured Values

Hagerty Insured Values

Hagerty is the world's leading provider of collector car insurance. We've pored through our extensive database to provide a glimpse at the highest, lowest and median insured value for your collector car. Of course, every car is unique, but this range provides an idea of what can be expected in the market today. Please note that in some cases, insured values may differ from price guide values. Often, higher values are accounted for by factors unique to the individual example such as low or high serial numbers, extreme low mileage or complete originality combined with a high state of preservation. The current market places a premium on such unrestored original cars.
